

## Shreeya Parekh

### **The Threats Cybersecurity Poses to Physical Security**

This presentation will outline notable cybersecurity attacks, threats, and weapons that threaten physical security. This ties into human security, a framework from the UN to address security threats to society. There will be a detailed analysis of certain major cyber incidents. The presentation will conclude with a trend analysis of the cyber incidents.

### **Biography**

My name is Shreeya Parekh and I am a senior at the University of Delaware studying Computer Science with a focus in cybersecurity, as well as Political Science. I am also a member of the university's Cybersecurity Scholars program since my freshman year, studying cyber-policy. My email address is [shreeya@udel.edu](mailto:shreeya@udel.edu). I have participated in cybersecurity research since my freshman year.
