

## Jenny Menna

### **Cybersecurity in Government and Industry, A View from Both Sides of the Fence**

What is the federal government doing in cybersecurity? How is the financial industry addressing this threat? How are they working together to make the nation stronger as a whole? How can State and local government, and other industries benefit from their efforts? Jenny Menna, Partnership Executive for Cybersecurity at US Bank and a former Senior Executive at the Department of Homeland Security will offer insights and perspectives.

### **Biography**

Jenny Menna is the Cybersecurity Partnership Executive at U.S. Bancorp, leading sector-wide efforts to strengthen public and private partnerships and promoting meaningful cybersecurity legislation. She also leads the Bank's information systems security strategic intelligence efforts.

Jenny is a nationally recognized cybersecurity leader, with substantial achievements in building large-scale information technology and security programs and plans across government and the private sector. She brings nearly 20 years experience in leadership roles in cybersecurity, information sharing, systems development and integration, and critical infrastructure protection.

Prior to joining U.S. Bank, Jenny held a variety of leadership positions in the Department of Homeland Security's Office of Cybersecurity and Communications, the component responsible for securing federal civilian, state and local government and critical infrastructure networks, as well as for coordinating cyber incident response. Her responsibilities ranged from strategic risk management and partnership engagement to front-line operational and technical activities, to leading national-level policy initiatives. She was selected for the Senior Executive Service in 2009.

Before her government service, Jenny worked in a series of increasingly responsible management roles in systems integration and consulting. She received both her Bachelors and Masters degrees from the University of Chicago, and received certification as Project Management Professional.
