

Keith Hartung

PN Narayanan

Insider Threat—Real or a myth?

The session discusses the insider threat issues, and mitigation strategies. There is a lot of attention towards external threat prevention, but there is a very little discussion about internal threats, why? How we can address them? Are we complacent when it comes to our own staff and colleagues? What are the real time audit strategies, how to do we execute them without constraining the business processes.

Biography

Keith Hartung is an Information Security Specialist who works for the Pennsylvania Treasury Department as Information Security Officer. Spending over 2 decades working in fields dependent upon understanding human psychology and motivation before transitioning to work in cyber-security, Keith knows that the dichotomy of people being both our greatest weakness and our greatest strength in regards to information security absolutely holds true.

Prior to joining the Pennsylvania Treasury Department, Keith managed the security infrastructure and data protection unit for the Pennsylvania Department of Human Services, protecting the personal and health data of over 3 million citizens, including working as part of the team responsible for their insider threat program.

Keith is a Certified Information Systems Security Professional (CISSP) and a Certified Information Security Manager (CISM), as well as, holding micro certifications in a variety of focused security topic areas. Keith has a

Bachelor of Science in Business Administration in Information Technology for Business Education from Shippensburg University.

PN Narayanan serves as the Chief Information Officer of the Commonwealth of Pennsylvania Treasury Department, which is responsible for over 20 million annual payment transactions worth more than \$100 billion. With more than 25 years of international experience across the public and private sectors, Narayanan has demonstrated exceptional skills and leadership in all aspects of information technology. In his role as the Chief Information Officer of the Pennsylvania Treasury Department, Narayanan has been responsible for a multiyear, agency wide IT modernization and transformation program that fundamentally transformed the way the agency conducts business, greatly improving operational efficiency and security. PA Treasury is a winner of the 2018 CIO 100 award and the 2018 Digital Edge 50 award.

Before joining Treasury, Narayanan led the transformation of the State of Delaware's financial systems through his successful management of Delaware's ERP Financial and Human Capital Management upgrade project. Prior to that, he served in multinationals in Europe and Asia Pacific. He is an Electronics and Communication Engineer with an MBA, and is a certified Project Management Professional.
