

Nick Christine

Microsoft 365 and Security for Small Business

During this workshop, participants will learn how Microsoft 365 Business can help small and mid-sized businesses:

- Achieve more together with best-in-class productivity and collaboration tools, like Word, Excel, and PowerPoint; expand their reach with apps and services designed for business; and bring groups together with Microsoft Teams.
- Get work done anywhere it matters with OneDrive for Business cloud storage, Skype for Business connectivity and Outlook and Exchange email and calendaring.
- Safeguard their business and lower security risk with Windows Defender, Windows 10 device management, and app protection for Office mobile apps on iOS and Android.
- Manage everything in one place and give employees a single login for all of their apps and services.

Biography

Nick Christine is the Community Development Specialist for the Microsoft Retail Store in the Christiana Mall. As a Community Development Specialist his job is to give Microsoft back to the community by providing 40-50 hours a week of workshops/programming for Youth, Educators, Consumers, and Business people. Nick is also responsible for sponsorships, donations, and volunteer activities in the local community.

Throughout Nick Christine's career he has spent 25 years doing Audio Visual work, Event Management, Customer Care, and Marketing. Nick has a degree in Forestry from Purdue University.
