

Elayne Starkey is the Chief Security Officer in Delaware's Department of Technology and Information (DTI), responsible for Delaware's enterprise-wide cyber security, disaster recovery, and continuity of operations programs. Elayne is the Chair of the Delaware Information Security Officer Team and member of the Governor's Homeland Security Council. She is a Certified Information Systems Security Professional (CISSP®), and a Distinguished Alumni from James Madison University. She was honored as one of 10 most Influential People in Government Information Security, a State Scoop 2017 Top Women in Technology, and has testified before the US Senate on cybersecurity.

Prior to joining DTI, she was the Chief Information Officer for the Delaware Department of Public Safety. She was named the Public Safety Employee of the Year in 2000 and served on the Governor's Information Services Task Force that created DTI.

Elayne has private sector software engineering experience at Xerox Corporation in Rochester, New York and Perdue Farms Inc. in Salisbury, Maryland.

Elayne holds a BS degree in computer science, math, and business administration from James Madison University and a MS degree in Computer Science from Rochester Institute of Technology with concentrations in Software Engineering and Data Communications.

Elayne is a lifelong volunteer mentor, and is passionate about encouraging young women to pursue careers in science, technology, and math (STEM).
